

Lydian Energy has obtained USD 233 million (EUR 198.8m) in project financing to support three battery energy storage systems (BESS), which are currently under construction in Texas and ...

A global developer of grid-scale energy storage projects said it has closed project financing and completed a 10-year offtake agreement for a battery energy storage system (BESS) installation in ...

The Spanish Battery Energy Storage Association (AEPIBAL) stated that the new regulation marks a major breakthrough for energy storage development in Spain. To accelerate energy storage ...

Spain's energy storage sector is evolving -- not just in size, but in strategy. New data from the Spanish Photovoltaic Union (UNEF) paints a nuanced picture of a market in transition.

Spain boasts industrial strength and access to cheap solar energy, yet new investment is slowing. José Donoso, CEO of solar association UNEF, outlines the challenges and potential solutions ...

This article emphasises the top 10 energy infrastructure investors in Spain who are instrumental in the advancement of sustainable energy infrastructure. These investors are playing a critical ...

Recurrent Energy is one of the world's largest and most geographically diversified utility-scale solar and energy storage project development, ownership and operations platforms. With an industry-leading ...

With a total capacity of 225 MWh, this storage is made of 114 high-tech Energy Storage Systems (ESS) containers designed and assembled by TotalEnergies' affiliate Saft, which develops cutting-edge industrial batteries.

Electric pumping allows for the storage of renewable surpluses and the stabilization of the grid. Iberdrola leads the way in installed capacity and innovation in pumped storage plants in Spain and Europe. These ...

The global energy storage battery cell market experienced unprecedented growth in H1 2025, with shipments exceeding 250 GWh--a 100% year-over-year increase driven by coordinated policy ...

Lydian Energy lands \$233M in financing for 550 MW/1.1 GWh of Texas storage The Electric Reliability Council of Texas said it expects to have nearly 14,000 MW of storage on its system ...

The Cross Trails BESS Project is a 57 MW / 114 MWh battery energy storage system located in the ERCOT region of Texas and joins the likes of the 50 MW Byrd Ranch Storage Project. ...

Spain texas energy storage

Texas presents a unique combination of a robust energy market and a pressing need for reliable infrastructure. The state has been at the forefront of renewable energy adoption, and battery ...

The Spanish parliament has rejected the Real Decreto-ley 7/2025, a package of measures designed to strengthen the country's grid and support battery storage deployment following the widespread power outage on April 28 that left ...

This article highlights the top 10 energy storage companies in Spain, highlighting the developers and investors who are responsible for the delivery of critical infrastructure that enables system ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...
