I'm sure that it's a high frequency split-phase unit. It wouldn't make sense to be anything else. The extra weight is probably due to a robust case with large heat sinks on the back. I wonder if that's why it's so quiet.

SPH 10000TL-HU-US · UPS function, 10ms transition ·1.5 DC/AC Ratio with 3 Mppts · Up to 200A charging/discharging current · Support DC-coupled, AC-coupled, AC-retrofit applications · Type II Surge protection for DC and AC sides · Support charge from diesel generator · Support both single phase and split phase application

Why is the growatt SPH 10000TL-HU-US considered an all in one? I read something about needing another device like the SPH 10000TL-HU-US if wanting to add batteries? Maybe the info was wrong. I'm looking for a 10kw to 12kw all in one grid tie inverter but wanted everything in one box.

The Growatt SPH 10000TL-HU-US 48V 10kW hybrid inverter offers split phase output at 120/240Vac, allow maxmium 15000W PV input and It includes 3 built-in MPPTs and protection against overload, over temperature, and short circuits.

I'm doing what I can to familiarize myself with the SPH_10000TL-HU-US before purchasing. I don't want to find myself with a boat anchor hanging on the wall. Without mentioning names, I've been talking with what seems to be a very reputable distributor for solar components. They seem to be more Eg4 related and have little knowledge on the ...
