An inverter or power inverter, refers to an electronic device that converts direct current (DC) into alternating current (AC). In our daily life, we often convert 110V or 220V AC power into DC power for use, while the inverter plays the opposite role. In other words, the inverter is used to convert the 12V, 24V or 48V

Solar Energy In South Africa Years ago, there was not much interest in solar technology in South Africa. Solar panels were a rare sight in South Africa, largely limited to the roofs of a few affluent households. This is
