Staco PPS. Provider Power System test sets 0-1000 VAC, up to 3500 kVA Precise variable voltage power supply for all electrical testing application up to 4000amps. Staco Energy Products Co. has been supporting the power requirements of R& D labs for over 75 years. Our PPS series provide precise voltage control for any electrical testing application.

The first Staco Energy variable transformer was manufactured in Dayton, Ohio in 1937. Since then, Staco Energy Products Company has pioneered improvements in design and construction of equipment for industrial, commercial, medical and military applications: Standard and specialized variable transformers; AC voltage control; Power conditioning; UPS

Staco 924 (Single Phase) FirstLine PL/PLT 924 (Three Phase) FirstLine P 924 (Three Phase) UNINTERRUPTIBLE POWER SUPPLIES (UPS) Staco V (Single Phase) Staco SV (Single Phase) Staco SV+, DOE Compliant (Single Phase) Staco VP (Single Phase) FirstLine PL/PLT (Three Phase) Staco E2 (Three Phase) FirstLine P (Three Phase) FirstLine PE (Three Phase)

While Ilinets looked at both passive and active harmonic filters, he opted for active filtering in this instance (10 50A and one 100A StacoSine active harmonic filters from Staco Energy Products Co.) due to the wide range of harmonics present from the servers, disc arrays and switches in the SLAC facility -- plus installation was simpler and ...

Staco Energy Products Co.'s voltage regulators are designed with maximum safety, ease of installation and efficiency in mind. Each model features a modular design, front accessibility and an enclosed, indoor, ventilated, drip-proof enclosure. Features; Applications; Product Selector;

Company &#187; Corporate Profile &#187; Products & Solutions &#187; Products Products Emergency Lighting. UPS. Regulation and Power Conditioning. Variable Transformers and Test Sets. Frequency Conversion. Power Factor & Harmonics ... Staco SV+ (DOE Compliant) 1, 1.5, 2, 3 kVA (Universal Tower / Rack Mount)

Staco E2 (Available ONLY Outside US) 10-100 kVA Three Phase, On-Line Double Conversion, Uninterruptible Power Supply. In the event of an AC power failure, the Staco E2 UPS will automatically transfer to battery power and continue to provide power without any interruption for the full amount of time you select.

Unlike a standard fixed ratio transformer, a Staco variable transformer is designed to provide variable output voltage that can be adjusted from 0 to 117% of the unit's input voltage. Staco Energy Products Co. offers a wide range of standard models including the following: Panel mount, single phase (fixed and adjustable shaft)

The Staco 924 full range of centralized lighting inverters extend from 0.95kW to 27kW and provide full power protection for all emergency lighting applications. The Voltage and Frequency Independent (VFI) design provides exceptional ...

FirstLine P 924. 58.5-225 kW Three Phase, On-Line Double Conversion, UL924 Central Lighting Inverter. Emergency Lighting System FirstLine P 924 is the result of your demand for an Emergency Lighting solution tailored to meet your requirements for a reliable, cost effective alternative for Emergency Lighting applications that help ensure the safety of your most ...

Please join me in welcoming Greg Beal back to Staco! Greg originally joined the Staco team in August of 2021 and as part of his military career, he was deployed to Syria in August of 2022. We are happy that Greg has returned home safely and will be re-joining the Staco team as the Inventory Specialist on Monday, 10/30/23.

The Staco Energy Products Company's Staco series does exactly what it has to do to guarantee clean power ... It generates its own! The Staco series, a solid-state UPS, has been designed to provide continuously regulated output voltage. For maximum flexibility, the Staco series will operate over a wide input voltage range at either 50 or 60 Hz.

Staco AVR. Electro-Mechanical 120-600 Volt, up to 2000 kVA Microprocessor controlled series regulation variable transformer topology designed with optional power conditioning elements including noise attenuation and SPD filters with 3-30 second full correction time.

Staco SV. 1, 1.5, 2, 3 kVA (Universal Tower / Rack Mount) Single Phase, On-Line Double Conversion, Uninterruptible Power Supply. The Staco SV features a field-proven Digital Signal Processor (DSP) achieving high reliability, while providing protection from electrical power disturbances to the connected load.

Staco E3. 3.5-40 kVA Three Phase, On-Line Double Conversion, Uninterruptible Power Supply. In the event of an AC power failure, the Staco E3 UPS will automatically transfer to battery power and continue to provide power without any interruption for the full amount of time you select.

Staco recognizes the importance of how vital water and wastewater operations are to residential and industrial customers and the overall community. Reliability and up-time certainly are critical for proper service, plus managing overall costs can be just as important.

Staco Energy Products can accommodate multiple pieces of equipment within your facility during a single trip, offering substantial discounts for all services. Contact Service FOR 24x7 / AFTER HOURS SUPPORT CALL 937-253-1191 ... Staco Energy Products Co. provides global service coverage to meet your power service needs. Established factory ...
