

One example is the development of porous liquids to reduce energy costs and avoid dangerous nitrosamines in carbon dioxide capture. An expert team from KTH and Stockholm University ...

The lithium metal market size was valued at USD 15.3 billion in 2024 and is projected to reach USD 79.3 billion by the end of 2034, growing at a CAGR of 18 % during the forecast period ...

Join us to be part of this impactful journey. Today, Ingrid Capacity is in a rapid growth phase with a historic expansion of energy storage in Sweden, while also expanding internationally.

The energy storage flywheel market, currently valued at \$236 million in 2025, is projected to experience robust growth, driven by the increasing demand for reliable and efficient energy ...

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

Swedish renewables developer Eolus (STO:EOLU-B) has secured its first site for a stand-alone battery energy storage project in Sweden, which has the potential for an installed capacity of ...

Stockholm thus offers a model for other cities seeking to invest in structural CO2 removal. Provided sufficient sustainable biomass is available and the infrastructure for offshore storage ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

SLSEA - Sri Lanka Sustainable Energy Authority As the governing body responsible for pioneering the sustainable energy revolution in Sri Lanka, we aim to facilitate the development of our nation's rich energy resources, ...

We are a positive force in the energy transition The Soltech Group is a full-service supplier with market-leading expertise in solar energy, electrical engineering, facades, roofing, charging infrastructure and advanced energy ...

The country expects to achieve fully market-oriented development of the power storage industry and independent research and development of core technologies and equipment by 2030. Answering the call, local governments ...

Stockholm energy storage research and development

The exploration of phenolphthalein's role in energy dissipative systems is in its early stages, with a growing market potential as energy efficiency becomes increasingly crucial. The technology is still emerging, with varying levels of ...

Sweden has been proactively pursuing and practicing policies that have encouraged research and development in water purification, sanitation, sewage and wastewater treatment, waste management and waste-to-energy, ...
