Storacell PBCORMS Powerpax Glow-in-The-Dark PBC Original Battery Caddy, Moonshine Storacell AA8pkCY Battery Caddy, Yellow, 8-Pack Storacell by Powerpax Slim Line "AAA" Battery Caddy, Orange - Holds 6 Batteries ...

This style battery caddy has been sold under a couple of different names over time, current it is "Storacell", before that it was "Powerpax" and initially it was "Tools Aviation". This caddy is a new design for 18650 cells, because these cells vary much more in size than other types of cells, it is very interesting to see how well they fit.

Storacell by Powerpax is the only one I trust. The only one that hasn't broken along the closure hinge in. De. Sructible. The Glow in the Dark option is great - although I generally buy the cheaper black version. Glow in the dark is the best, however. Can't deny it. Maybe a little less stiff as well, but still holds the batteries firmly.

A battery container that is lightweight, handy, and portable. It helps you stay organized and makes it easy to distinguish between charged and depleted batteries. Simply place charged batteries with the positive terminal facing down and depleted ones with the positive terminal facing up.
