

Registrations of vehicles with plugs rose strongly as battery electric vehicles (BEVs) jumped 39.1% to 47,354 units, equivalent to a quarter (24.8%) of the market, and plug-in hybrid electric vehicles (PHEVs) grew 28.8% to 21,382 ...

Guidance for car manufacturers on how to apply for their vehicles to be eligible for the Electric Car Grant. The guidance explains: how the scheme works vehicle eligibility the application process ...

China's BYD said on Tuesday it delivered 382,585 vehicles globally in June, marking a 10.5% increase from the same month last year. Of the total, 377,628 were passenger vehicles, ...

BMW Group has announced its commitment to hydrogen fuel cell technology, planning to launch its first hydrogen-powered vehicle into series production by 2028. This move positions the ...

As Europe's electricity mix is getting cleaner, battery-electric vehicles (BEVs) are also offering a larger climate advantage than previously expected, according to the results of a new study ...

Unlike plug-in hybrids, BEVs run exclusively on electricity stored in large-capacity battery packs and emit zero tailpipe emissions, helping countries move closer to net-zero goals. Automakers ...

The storage is provided through a combination of fleet vehicles and stationary batteries with Nuvve Corp as the aggregator. Thus, in addition to functioning as vehicles for their primary ...

The European Commission announced on Wednesday that Chinese-made battery electric vehicles, or BEVs, will soon be subjected to punitive countervailing tariffs, after the conclusion of the bloc's anti-subsidy ...

The global lithium-ion battery market for all-electric vehicles (EVs) is experiencing robust growth, driven by the escalating demand for electric vehicles worldwide. Governments' stringent emission regulations and increasing consumer ...

China's new energy vehicle (NEV) sales continued to set a new high for this year in June, with battery electric vehicle (BEV) sales maintaining momentum stronger than plug-in hybrid ...

"The good news is a hydrogen vehicle is an electric vehicle," says Guldner. "It's just a different way of storing the energy versus a battery, which also means that we can reuse a lot of the ...

Battery Electric Vehicle (BEV) A BEV runs entirely on electricity. Unlike traditional cars, BEVs don't have a gasoline engine; they get all their power from a rechargeable battery. This means ...

Sukhumi battery electric vehicles bevs

A new report by the International Council on Clean Transportation (ICCT) finds that battery electric vehicles (BEVs) produce significantly fewer greenhouse gas (GHG) emissions than ...

Battery electric vehicles (BEVs) in Europe are now proving to be significantly more climate-friendly than petrol-powered cars, according to new findings from the International Council on Clean ...

Imports of battery electric vehicles (BEVS) fell by more than 50 per cent in value during the 12 months to June 2025, when compared with the year prior, according to Stats NZ. The total value of passenger motor vehicle imports for the past ...

Battery Electric Vehicles (BEVs) now dominate powertrain installations, making up nearly 71% of the total demand across major regions. Battery packs account for about 38% of the market ...

Fuel cell vehicles (FCVs), which convert hydrogen into electricity via an electrochemical reaction, offer several benefits compared to internal combustion engine (ICE) vehicles and battery ...

Battery Electric Vehicles (BEVs) and Hybrid Electric Vehicles (HEVs) share some components, but not all: Auxiliary battery: Both BEVs and HEVs use an auxiliary 12V battery for low-voltage systems (lights, infotainment, etc.).

Leapmotor currently sells the T03, B10, C01, C10, C11, and C16 models in China. Except for the T03 and B10, which are only available as battery electric vehicles (BEVs), all other models are also available as extended-range electric ...

The European Parliament's decision to ban the sale of new internal combustion engine (ICE) cars by 2035 is a bold move, signaling a significant pivot towards electric vehicles (EVs) as part of the EU's ambitious climate goals.

The global electric vehicle (EV) market is witnessing a significant resurgence, with sales in the first half of the year exceeding 5.9 million battery electric vehicles (BEVs), according to a ...

The project consortium, coordinated by an Austrian Research Institute, is looking for a company (SME or bigger) acting as Original Equipment Manufacturer, who can cover all vehicle-related ...

When a battery pack dies, the BEV it powers tends to kick the bucket with it. It only wouldn't be the case if these parts were cheap to replace. That was when I thought about my car-buying ...

These components are specifically designed for automotive batteries used in battery electric vehicles (BEVs) and plug-in hybrid vehicles (PHEVs), with the expansion finalized as of June ...
