SunCalc shows the movement of the sun and sunlight-phase for a certain day at a certain place.. You can change the sun's positions for sunrise, selected time and sunset see. The thin yellow-colored curve shows the trajectory of the sun, the yellow deposit shows the variation of the path of the sun throughout the year.

This makes your container lighter, easier to pack, and better fitting for a variety of jumpers. Harness design is also vital for accuracy competitors. The main ring placement has been relocated on the Accuracy Javelin, allowing you to sit up straight in the harness and giving you a better body positioning on approach.
