Is there a power grid in Sweden?

In Central Sweden, there is also a single-phase AC power grid operated with 16.7 Hz frequency for power supply of electric railways, see Electric power supply system of railways in Sweden. Sweden is subdivided into four price areas: Malmö (SE4), Stockholm (SE3), Sundsvall (SE2) and Luleå (SE1) (as of winter 2015).

How many run-of-river power plants are there in Sweden?

From Sundsvall, we manage 74 run-of-river plants, located from Lycksele in the North to Kristianstad in the South. The plants have a combined capacity of about 1,600 MW and an average annual output of 8 TWh; this is about 12% of Sweden's total hydropower production. Karlshamnsverket is an oil-fired peak and reserve power plant.

Who owns Swedish nuclear power?

Swedish nuclear power is owned by the state company Vattenfall, Finnish Fortum and German E.ON. The competition authorities and OECD have criticized the joint ownership. Swedish people voted for phase-out of nuclear power plants on 23 March 1980. The outcome of the vote was that the nuclear reactors will be phased out at a feasible rate.

Does Sweden have a nuclear power plant?

Nuclear power, which meets about 30% of Sweden's power demand, plays an important role in its energy supply. Uniper is the majority owner of the nuclear power plant (NPP) Oskarshamn and a minority owner of the Ringhals and Forsmark NPPs.

When did Sweden phase out nuclear power plants?

Swedish people voted for phase-out of nuclear power plants on 23 March 1980. The outcome of the vote was that the nuclear reactors will be phased out at a feasible rate. In 1980 the Riksdag decided that nuclear energy would be phased out by 2010. Barsebäck 1 nuclear reactor was shut in 1999 and Barsebäck 2 in 2005.
