

Grab a coffee and your car is fully charged--this is how many people envision the future of mobility. But today's batteries still fall short of this ideal. While modern lithium-ion batteries can ...

On April 15, 2025, Taiwan's Environment Ministry announced a draft revision to its battery recycling levy structure, aiming to incentivize manufacturers and importers of lithium-ion ...

NGK's EnerCera Pouch Li-ion rechargeable batteries exhibit double the energy density and less than half the internal resistance of other similarly sized commercial alternatives. The 0.45 mm thickness enables EnerCera ...

Taiwan's Ministry of Environment will continue to monitor the air quality surrounding the Kaohsiung factory of lithium battery maker Molicel following a fire that broke out on July 14.

Taiwan's lithium battery and solar industries are confronting safety challenges that mirror risks seen across international markets, even as the government maintains support for...

Tulip Innovation Kft. is an independent company founded to establish and manage the lithium-ion battery licensing program. Based in Hungary, the hub of European battery manufacturing, ...

A massive explosion occurred at the San Yuan Energy Technology battery factory in Kaohsiung's Xiaogang District, Taiwan today (Monday) at around 5:04 AM. This facility, noted as Taiwan's ...

Molie Quantum Energy Corp. (MQE) announced on Wednesday that after a fire broke out at its lithium-ion battery cell plant in Kaohsiung on Monday, it will adjust production capacity at its ...

Taiwan Cement Corporation's lithium battery brand Molicel has begun insurance claim procedures following a fire at its ternary energy facility in Kaohsiung. The incident won't affect TCC's ...

Ni-rich (Ni content $>$ 60%) layered cathodes are currently the most promising materials for lithium-ion batteries due to their high capacity and elevated voltage plateau compared to LiFePO₄. ...

While lithium-ion (Li-ion) batteries offer high energy density, they are classified as Class 9 dangerous goods, bringing significant challenges related to logistics, installation, fire risk, and ...
