

Taiwan satec powerful solutions

Power: True RMS volts, amps, power, power factor, neutral current, angles and unbalance for voltage and current, frequency, symmetrical components and many more; Event and parameter data-logging; Sampling frequency: up to 1024* samples per cycle; KYZ or KY output and LED indication for calibration and test (via optional display)

Portable (Class A, Ed. 3) PQ Analyzer. The EDL180 is a portable version of the Class A (Edition 3) PM180 power quality analyzer, which holds extensive track record serving as the platform for power quality monitoring systems in worldwide national grids. Equipped with a 24V battery for backup power supply and flexible current clamps, it is fitted in a lightweight traveling bag for ...

The PM130. Utilizing shunt resistors, the PM130 offers a basic cost-effective DC metering solution, suitable for retrofit installation in facilities where the shunts are already in place. This is the case quite often in the telecom market.

SATEC is a developer and manufacturer of specialty solutions for power measurement and power quality monitoring. The company's range of products includes traditional 3-phase power meters for real-time power measurement and data-logging, revenue meters (electricity meters), power quality analyzers and a software suite for energy management and billing. With headquarters in Jerusalem, Israel and subsidiaries in Union, New Jersey and in PRC, SATEC...

SATEC advanced Phasor Measurement Unit (PMU) multi-functional three-phase power meter provides up to 200 frames-per-second in 50 hertz electrical system. Clock synchronisation to UTC is by IRIG-B or IEEE 1588 requirements. ... SATEC solutions provide multiple solutions for PMU with inclusive Power Quality monitoring, e.g. transients, waveform ...

Power quality monitoring has been SATEC's core expertise since its foundation. Over the years our solutions have evolved to include numerous helpful features and advantages within the field of power quality analysis: Class A, Ed. 3 certified analyzer; Fast transient detection; Disturbance Direction Detection (see note below)

Esta funci#243;n, com#250;n a cualquier equipo de SATEC Powerful Solutions se realizar#225; mediante el siguiente sub-men#250;: El analizador BFM tiene la particularidad de tener una pesta#241;a espec#237;fica para la asignaci#243;n de canales como ya se coment#243; anteriormente, se recomienda que dicha

A bright 7-segment LED display, accompanied by a LED load-bar, enables easy on-site access to power parameters and viewing of load percentage at a glance. DC Metering The PM130 allows also Direct Current (DC) metering via shunt, making it a unique meter compatible with DC applications such as renewable energy or data centers.

SATEC's meters not only support the latest Energy IoT protocols but also passed TAF and ILAC certification. It has been successfully applied to offshore wind power and power ancillary service in Taiwan, which can

Taiwan satec powerful solutions

meet the strict ...

SATEC is a developer and manufacturer of specialty solutions [buzzword] for power measurement and power quality monitoring. The company's range of products includes traditional 3-phase power meters for real-time power measurement and data-logging, revenue meters (electricity meters), power quality analyzers and a software suite for energy management and billing.

Consult with us. The contemporary business mindset is often based on a practical solution-oriented approach. As a result-driven client, you prefer the greater picture and bottom line over the ins and outs of technically complex systems.
