What does Teledyne Energy Systems do?

Teledyne Energy Systems specializes in custom integration and design of battery systems using commercial cells in various formats. We test, select, and match cells to ensure optimal performance within our battery systems. Our Battery Management Systems are engineered and designed specifically for each application.

Who is Teledyne battery products?

Teledyne Battery Products is a leading manufacturer of starting and ground power batteries designed for a wide variety of Business Aviation, General Aviation, and Military applications. Battery Finder Interested in Working Together? Copyright © 2021 Teledyne Technologies Incorporated. All rights reserved.

What is a Teledyne battery management system (BMS)?

Teledyne Energy Systems' Battery Management System (BMS) uses a combination of advanced algorithms, specialized software, and robust hardware to allow the battery to operate both safely and efficiently, promoting extended battery life.

LI-ION BATTERY. MORE POWERFUL THAN EVER. The latest generation of battery packs consists of Li-ion cells that are equipped with an integrated intelligent monitoring system which ensures a longer battery life. This type of battery does not have a so-called "memory-effect" and therefore does not have to be discharged before one is able to ...

U.S. Outlying Islands (EUR EUR) Uganda (EUR EUR) Ukraine (UAH UAH) United Arab Emirates (EUR EUR) ... GILL: TELEDYNE BATTERY PRODUCTS offers comprehensive customer support and a global service network, ensuring timely assistance and aftermarket services for GILL battery users worldwide. With dedicated technical experts and authorized service ...

PERFORMANCES. Lightweight, compactness, and high-resolution image definition are the key elements that describe the TactX. Developed both with and for EOD operators, the TactX x-ray aSi detector weighs just 2.9 kg and is truly compact. Combined with Teledyne ICM CP Battery X-Ray generators (CP120B, CP160B or LiteX), it is the ideal choice for inspections in narrow ...

CP Battery. PORTABLE X-RAY GENERATOR. ADVANCED TECHNOLOGY. Next to the CP120B, the CP160B is the slightly more powerful version of our ultra-light, compact and battery operated constant potential portable X-Ray generators. Allowing penetration reaching up to 30 mm for steel, the CP160B is the perfect tool for specific NDT applications that require ...

Service and Support > Battery Registration. Register Your New Battery. Thank you for taking the time to register your new battery, this secures ...

Paired with Teledyne ICM's CPBattery X-Ray generators (CP120B, CP160B, and LiteX), the FLATSCANs deliver a sharp, clear, and detailed image of any suspicious object, allowing fast and accurate decision makings in time-critical moments. The new TactX and TactXL detectors complete the FLATSCAN series. These high-resolution detectors have been ...

Lithium-Ion Battery Pack that provides immediate feedback on state of charge with the 3-LED Fuel Gauge System and has a lightweight design for easy transporting. XR#174; Lithium Ion pack provides up to 60% more capacity than standard 20V MAX* battery pack (DCB200) 3-LED Fuel Gauge allows immediate feedback on state of charge

C-View Security. REAL TIME X-RAY IMAGING. YOUR SECURITY PARTNER. C-View Security is a light weight ruggedized real time X-ray imaging system specifically designed for hand-held security inspection. It includes a high-speed and high-resolution CMOS imager and a battery-operated 70kV x-ray tube designed for portable field operation.

Mains, power generator, battery: Supply voltage range - selector free - Auto resettable fuse: VAC: From 90 to 264: Supply frequency range - sector free: Hz: From 45 to 66: Input power factor at full output % 99: Input current at full power, 230 VAC: A: 6.0: Working ambient temperature °C-30 to +55: Storage ambient temperature range °C-40 to ...

PERFORMANCES. Lightweight, compactness, and high-resolution image definition are the key elements that describe the TactXL.. Developed both with and for EOD operators, the TactXL x-ray aSi detector weighs just 4.3 kg and is truly compact. Combined with Teledyne ICM CPBattery X-Ray generators (CP120B, CP160B or LiteX), it is the ideal choice for inspections in narrow ...

LI-ION BATTERY. MORE POWERFUL THAN EVER. The latest generation of battery packs consists of Li-ion cells that are equipped with an integrated intelligent monitoring system which ensures a longer battery life. This type of ...

CPBATTERY. FILTER & LEAD CAP. The CP120B & CP160B generators can be equipped with either a filter or lead cap. These can be used to filter out low energy beams and in doing so improve the image quality. For instance, the lead cap is used to block the X-Ray beam during the pre-heating of the CP160B.. Both the filter and lead cap are combined with a specific holder to ...

Lithium-Ion Compact Battery Pack that provides immediate feedback on state of charge with the 3-LED Fuel Gauge System and has a lightweight design for easy transporting. Compact Lithium Ion pack provides up to 33% more capacity than standard 20V MAX* battery packs; 3-LED fuel gauge system allows immediate

feedback on state of charge

CPBATTERY. FAST BATTERY CHARGER. FULLY CHARGED WITHIN THE HOUR. The Li-ion battery pack charger is uniquely designed to charge the Li-ion battery packs of either the CP120B or CP160B generators.. On the front panel there is a "power-on" LED indicating that a supply voltage is present and the charger is switched on, as well as a led battery charge indicator that ...

PERFORMANCES. Lightweight, compactness, and straightforward handling are the key factors that led to the design of the FLATSCAN15 XS developed both with and for EOD operators, the FLATSCAN15 XS weighs just 2.7 Kg and is truly compact bined with the CP120B or CP160B X-Ray generators, it is the ideal choice for inspections in narrow places or areas that are ...

TOUCHSCREEN SOFTWARE FOR ON-THE-FIELD SECURITY INSPECTIONS. Sherlock Security is a software solution that has been designed and developed by Teledyne ICM for EOD specialists.. It is the perfect tool for on-the-field security inspections. The intuitive and user-friendly touchscreen software produces high-quality images and comes with many different ...

BEST EVER DESIGN. Being just 20 mm longer than the CP160D, the CP200D represents the best compromise between high penetration (up to 42 mm for steel) and the capacity of the generator to fit with various NDT applications, such as inspections of more technical materials in the aeronautical or space industries. The CP200D is one of the most versatile generators on ...

The 20V Lithium-Ion Battery Charger features quick charging and a LED indicator to display charging status, when to replace battery pack, and battery temperature. Charges all DEWALT®; 12V - 20V MAX* Li-Ion batteries; Charges the battery in 90 min or less thus minimizing downtime
