

The Gambia price of complete solar system

Why should the Gambia invest in solar energy?

To match the rising demand and to provide sustainable and accessible energy to all Gambians, the potential for solar energy investment is immense in The Gambia. The government of The Gambia seeks to increase RE's contribution to 40% from 2% presently in the coming years.

How much solar power does Gambia have in 2022?

According to the International Renewable Energy Agency (IRENA), Gambia only had 2 MW of installed PV capacity at the end of 2022. Gambian utility Nawec recently started building a 23 MW solar project in Jambur, in Gambia's West Coast Region.

What is the energy system in Gambia?

The Gambian electricity network mainly consists of minigrids that the government hopes to improve by transforming into hybrid minigrids, integrated with renewable energy generation capacity. With an electricity access rate of just 35%, Gambia introduced the Renewable Energy Act to promote clean energy in 2013.

What is the minimum daily solar production capacity of the Gambia?

The minimum daily solar production capacity in The Gambia is 4 kWh solar power radiation per square meter. The National Development Plan (NDP) seeks to increase the share of renewable energy from 2 to 40 percent.

What is the energy access rate in Gambia?

With an electricity access rate of just 35%, Gambia introduced the Renewable Energy Act to promote clean energy in 2013. This content is protected by copyright and may not be reused.

What is the PV capacity in Gambia?

The PV systems will range in capacity from 2 kW to 240 kW. The time limit for the acceptance of tenders or requests to participate is Oct. 31. According to the International Renewable Energy Agency (IRENA), Gambia only had 2 MW of installed PV capacity at the end of 2022.

We can take care of all the planning and construction of your complete solar pumping system including borehole drilling and making tapstands. From pumping water for recreation, like pools for example, to surface pumping from the river Gambia for agricultural purposes, like one of our previous clients pumping water to a rice field, we can make your dream a reality!

The first phase of this project is 50 MWp with a Battery Energy Storage System to meet (and not exceed) the national needs of energy consumption. To this effect, The Government of the Gambia through MoPE and NAWEC intends to select an Independent Power Producer (IPP) under a Public-Private Partnerships (PPP) approach.
