

Tiamat energy Micronesia

Who makes Tiamat batteries?

Tiamat designs, develops and manufactures sodium-ion batteries for mobility and stationary energy storage. Stable, simple, safe, fast and performing solution.

What does Tiamat do?

Tiamat aims to further develop its technology in the years to come and to qualify its prototypes in collaboration with many industrial partners and end-users. Tiamat designs develop and manufacture sodium-ion batteries for mobility and stationary energy storage. Stable chemistry for simple, safe, fast, and performing solutions.

When did Tiamat close?

Tiamat closed its last funding round on Jan 15, 2024 from a Venture - Series Unknown round. Who are Tiamat's competitors? Alternatives and possible competitors to Tiamat may include iM3NY, Form Energy, and Spear Power Systems. Tiamat designs, develops, and produces innovative solutions for energy storage applications.

What are the applications of Tiamat technology?

Tiamat technology finds its major applications in mobility (48V MHEV, 12V SLI, fast-charge ebus..) and stationary storage (grid frequency regulation), where high power needs are not satisfied by reference technologies.

What is Tiamat GEN1 and Gen2?

With its two generations (Gen1 for power applications, Gen2 for medium energy density applications), Tiamat covers the needs of electrification on the markets of mobility (road, rail, marine and air), stationary applications, off-highway needs and powertools, at competitive cost, superior safety and lifetime.

Where is Tiamat based?

Founded in 2017 in Amiens (France), Tiamat is based on almost 10 years of academic research carried out by some research units of the CNRS and the university working together within the RS2E, such as the Collège de France in Paris, the LRCS in Amiens, the CIRIMAT in Toulouse, the ICMCB in Bordeaux and the CSIC in Barcelona.

TIAMAT Energy wurde Ende 2017 aus dem CEA/CNRS ausgegliedert und ist ein Start-up-Unternehmen, das innovative Lösungen für Energiespeicheranwendungen entwirft, entwickelt und produziert. Die in den 18650er-Zellen von Tiamat verwendete Na-Ionen-Technologie zeichnet sich durch hervorragende Eigenschaften für Leistungsanwendungen, schnelles ...

Soluzioni etichettate da Tiamat Energy. Il marchio Solar Impulse Efficient Solution cerca di colmare il divario tra ecologia ed economia, unendo la protezione dell'ambiente e la redditività finanziaria per dimostrare che queste soluzioni non sono costose soluzioni ai problemi, ma piuttosto opportunità di crescita economica pulita.

TIAMAT, société par actions simplifiée, au capital social de 72637,00 EURO, dont le siège social est situé au 72 RUE DES JACOBINS, 80000 AMIENS, immatriculée au Registre du Commerce et des Sociétés de Amiens sous le numéro 831726245 représentée par M Herve BEUFFE agissant et ayant les pouvoirs nécessaires en tant que président.

Tiamat General Information Description. Designer and manufacturer of sodium-ion batteries designed for mobility and stationary energy storage. The company's battery cells have fast-charging power capabilities with high power density, safety usage and enhanced cycle, enabling clients to receive long-life batteries for their usage.
