How does Tigo work?

Tigo solutions can be applied to existing solar installations or new ones at virtually any scale. Sites require just a few main components to unlock the benefits of optimization, advanced module-level monitoring, and enhanced safety. Easily connect to solar modules to enable multiple features and benefits.

How much does Tigo cost?

No charge for the basic account. The only requirement is an Internet connection for the Tigo Management Unit or Cloud Connect to send data. Free Service Package can be upgraded at any time, by the System Owner or Installer. Premium monitoring can be previewed for a free one-month trial.

What is Tigo TS4 flex mlpe?

Tigo TS4 Flex MLPE (Module Level Power Electronics) give you the freedom to choose the right features, inverter, and module for your solar installation. Tigo TS4 are the flexible, simple and trusted solution for solar professionals in 100+ countries.

Does Tigo offer a free or premium system service package?

Tigo offers Free and a Premium system service packages. These options are available to any users (System Owners or Installers) within the Tigo Energy Intelligence (EI) Monitoring Portal or EI App. This article provides information for both packages. Contents

What is Tigo Energy Intelligence?

Tigo Energy Intelligence is plug-and-play with Tigo equipment so installers can quickly commission a site and then move on to the next one. Energy Intelligence currently supports more than 20,000 equipment types including 3rd party inverters, meters, batteries, and more.
