

The infamous Bloomberg Tier 1 ranking is commonly referred to as a bellwether in the solar industry for identifying the better solar panel brands. It is important to note that this ranking only looks at each manufacturer's bankability. This is important because the business will need to be around for 25-30 years if you expect them to honour their lengthy warranty terms.

1 ?· Best Approach to Install Solar Panels on Metal Roofs. The best approach for outfitting metal roofs with solar panels is to contact a professional.
