What is a solar farm & how can it help Tonga?

Producing energy since August this year, and providing power for up to 10,336 households, the Solar Farm is helping The Government of Tonga pursue its National Energy Roadmap plans to see up to 70% of Tongatapu's electricity generation sourced from renewables by the end of 2025.

Why do we need solar power in Tonga?

Renewables like solar are a significant means for Tonga to expand energy access, stabilize power grids as well as reduce pollution. Considering the shortage of solar expertise and finances for countries like Tonga, the role of independent power producers and the practice of PPA provide solid support to smooth the way for solar deployment.

Who are Sunergise New Zealand & Tonga Power Limited?

This solar project was completed under the partnership between Sunergise New Zealand Limited and Tonga Power Limited with support from the Asian Development Bank (ADB). Sunergise led the construction and meanwhile united local Tongan civil, mechanical and electrical sub-contractors to the team.

What does Sunergise's 6MW solar system mean for Tonga?

As Hu'akavameiliku, Prime Minister of Tonga said at the ceremony: "The successful completion of the Sunergise's 6MW Independent Power Producers solar generation system today, demonstrates the major role renewable energy independent power producers play towards achieving our 70% target by [the]end of [the]year 2025."

What is Sunergise Tongatapu solar farm?

The Sunergise Tongatapu Solar Farm is the largest in the South Pacific. It was built as part of a power purchase agreement between Sunergise New Zealand Limited, a Todd Corporation solar company and Tonga Power Limited, with support from the Asian Development Bank.

Why is Tongan King Tupou VI opening a solar power plant?

Tongan King Tupou VI at the official opening of the biggest solar power plant in the South Pacific. Photo /Sunergise Tongan Prime Minister Hu'akavameiliku Siaosi Sovaleni, who was also at the launch, said the plant indicates the need for independent power - like solar energy - to achieve their National Energy Roadmap.

It was built as part of a power purchase agreement between Sunergise New Zealand Limited, a Todd Corporation solar company and Tonga Power Limited, with support from the Asian Development Bank. The Solar ...

King Tupou VI commissioned Tonga's new 6.9MW solar power plant at Fualu on 7 December, which will assist Government's plans to reduce the country's reliance on imported fossil fuels. The Sunergise Tongatapu

It is reportedly the largest solar power project in the South Pacific, replacing 18% of current diesel-fueled power with solar energy on the Tongatapu island. This solar project was completed under the partnership ...

At Sunking Solar, we're not just in the business of solar energy - we're in the business of a sustainable future. With a deep-rooted passion for renewable energy and a commitment to excellence, we're here to harness the sun's power and illuminate a brighter tomorrow for you and the generations to come.

About Solaric. Solaric was founded in 2013, its goal was to provide cost effective solar energy for home and business users. Driven to provide an energy system that has less than 5 years Return on Investment, Solaric worked hard to engineer a system that would not use costly batteries and sell back to the grid the surplus energy for evening credits under the Net Metering program of ...

The Ha Mai Solar Facility is the first solar farm installed at Lifuka, Ha"apai. It has a capacity of 550 kW and 660 kW/hr of battery storage. Ha"apai is the first island in Tonga to reach 50% renewable energy, another step towards Tonga's overall goal of ...

Niuafou"ou, Tonga: The community living on the remote island of Niuafou"ou, in Tonga's far north, can now access a 24-hour power supply, through a new solar mini-grid that was commissioned by Crown Prince Tupouto"a "Ulukalala on Friday, 11 October, under the Tonga Renewable Energy Project (TREP).

Tonga's first ever large scaled wind farm with a capacity of 1.3 MW, completed in 2019. The guyed tower ensures that all maintenance operations can be done at the ground level. The unique system largely reduced maintenance cost and dramatically shortened stopping time of wind turbines. In case of cyclones, the turbine can be secured to the ...

Tonga Renewable Energy Project (TREP) has three components: (i) a large BESS capacity on Tongatapu to ensure that the intermittent electricity generated from solar photovoltaic and wind power to be funded by private independent power producers can be stored and used overnight without negatively affecting Tonga Power Limited's grids; (ii) electricity ...
