Im genuinuely curious as to what you perceive to be the current impact of the existing solutions vs new eco-centric solutions. Panels have a lifespan yes but you arent going to be changing them out every 5 years, and in an ideal situation a conversion will not mean for adhoc panels at each property but for a solar farm for mass generation.

While Solar PV is readily available in Trinidad and Tobago, irradiated heat is also available in abundance. To supplement solar PV which uses the sunlight to produce electricity, we also provide solutions which capture the Sun's heat ...
