

Tuvalu solar installation harare

What is the Tuvalu solar power project?

The Government of Tuvalu worked with the e8 group to develop the Tuvalu Solar Power Project, which is a 40 kW grid-connected solar system that is intended to provide about 5% of Funafuti's peak demand, and 3% of the Tuvalu Electricity Corporation's annual household consumption.

Does solar installation work?

Whether commercial, home on or off-grid, we have a proven method of installation that works. We have installed more than 2000 solar systems across the country and that experience has become proficiency. Our process has been tried and tested. And as new technologies emerge, we continue to find better ways of giving the best value.

Do you install quality solar equipment?

We only install quality equipment. We use reputable brands, from solar inverters to panels and batteries. We know good equipment means good guarantee periods so we try and take advantage of this for our customers' benefit. Our mission is to increase awareness and adoption of solar energy.

Installation costs for a 10kVA solar power system start at \$5,350. Includes 10 550 Watt solar panels, 2 48V 100Ah lithium batteries, 10kVA hybrid inverter, and all accessories. Contact us for professional installation of your system. Contact Shingie at +263775810680
