Who is vflow Tech?

VFlow Tech Pte Ltd - We have reinvented the Vanadium redox flow technology to develop the cheapest and most efficient modular vanadium redox flow batteries in the world. Our unique industry focused ap

What is vflowtech Pte Ltd?

VFlowTech Pte Ltd is developing flow batteries for renewable energy application. We are at the product development and commercialization stage. To support our projects, we are looking for interns to support on battery system design and fabrication. The intern (s) will be working on following activities:

Is vflow Tech a joint venture?

VFlow Tech's most recent deal was a Joint Venture with . The deal was made on 22-Jun-2022. Ready to get started? When was VFlow Tech founded? VFlow Tech was founded in 2018. Where is VFlow Tech headquartered? VFlow Tech is headquartered in Singapore, Singapore. What is the size of VFlow Tech? VFlow Tech has 88 total employees.

Who are vflow Tech's competitors?

One of VFlow Tech's 3 competitors is , a Venture Capital-Backed company based in Munich, Germany. You're viewing 3 of 3 competitors. Get the full list » Explore institutional-grade private market research from our team of analysts. You're viewing 5 of 20 investors. Get the full list » VFlow Tech's most recent deal was a Joint Venture with .

What makes vflowtech unique?

VFlowTech's unique IP and innovative approach emphasizes eco-friendly and cost-effective battery technology with long operational lifespans of more than 25 years and addresses issues of performance degradation, thermal runaway, and product reliability and safety, while being fully recyclable at end of life.

Is vflowtech a safe & environmentally friendly battery?

With a 25-year expected lifespan, VFlowTech has one of the safest and most environmentally friendly battery technologies. VFlowTech was incubated in the CleanTech lab of Singapore's Nanyang Technological University, and benefits from unique IP arising from many years of intensive research at the university.

Singapore, 22 October 2024 - Advorio Asia Pacific (Advorio), VFlowTech (VFT), and JTC today signed a Memorandum of Understanding (MoU) to collaborate on scaling up vanadium redox flow battery (VRFB) capacity for clean energy storage on Jurong Island. Under the MoU, the three parties will explore using Advorio's tank infrastructure to scale VFT's VRFB technology [...]
