

Ukraine g2 energy solutions

How much money has urc24 contributed to Ukraine's energy sector?

The Group has so far been able to mobilize more than USD 5 billion in support of Ukraine's energy sector, including more than USD 1 billion committed since URC24 in June as a reaction to the intensified Russian attacks.

Can a solar PV-plus-storage system improve resilience in Ukraine?

NREL is working with USAID, the Ministry of Energy of Ukraine, and the Ministry for Communities, Territories, and Infrastructure Development of Ukraine to design a microgrid pilot project that will demonstrate how a solar photovoltaic (PV)-plus-storage system could enhance resilience under the present conditions in Ukraine.

Is the Ukraine energy support fund restoring domestic generation capacity?

While the Ukraine Energy Support Fund is currently restoring and installing 2 GW of domestic generation capacity ahead of winter, a significant gap to cover the restoration needs still remains. We therefore encourage the international community to continue contributions.

When will wind resource data be added to Ukraine?

Critically, wind resource data is anticipated to be added for Ukraine by early 2024. Ukraine 4-km solar resource data, available on the RE Data Explorer platform. Illustration by Billy Roberts, NREL

Is Ukraine's power still on?

Now, after more than a year of ongoing warfare, Ukraine's power is still on. Crews from Ukrenergo are on call 24/7 to respond to targeted attacks on their grid infrastructure and to address local communities' needs within hours after a missile strike to get power flowing again.

Why do we reaffirm our commitment to Ukraine?

We reaffirm our strong commitment to the territorial integrity, independence, and sovereignty of Ukraine within its internationally recognised borders and to focus on the key priorities needed to achieve a comprehensive, just, and lasting peace based on international law, notably the UN Charter and its principles.
