

Direct current microgrids are widely regarded as a promising clean power system technique. However, the microgrid stability is challenged by routine operations and unplanned faults, ...

The application of a virtual synchronous generator (VSG) to provide virtual inertia in isolated microgrids has emerged as a promising control strategy for converter-inter-faced renewable ...

Microgrids are a cornerstone of modern energy infrastructure, but the increase in digitalization presents security challenges. Cyberattacks can target various microgrid components and have ...

This paper gives a thorough overview of the technological advancements in microgrid systems, focusing on the Internet of Things (IoT), predictive analytics, real-time monitoring, ...

Key developments on July 22: * Russian troops enter Pokrovsk, Ukrainian "search and destroy" operation ongoing * Zelensky appoints delegation for peace talks with Russia in Istanbul, signals new ...

Abstract The interlinking converter, an important device in a hybrid AC-DC microgrid, undertakes the task of power distribution between the AC sub-microgrid and DC sub-microgrid. To ...

To ensure the safe and stable operation of an islanded microgrid (MG) system, it is imperative to evaluate the impact of multiple communication constraints. This study addresses the ...

The centralized control is one in which central system manages all operations making it efficient but vulnerable to single-point failures [34 - 37]. In decentralized control, each component is ...

Ukrainian Security Service long-range drones struck the Signal plant in Russian Stavropol on 26 July, targeting one of Russia's largest radio electronics manufacturers, hromadske reported, ...

Russia claimed on Saturday that its forces have taken control of two villages in Ukraine's eastern regions. The settlements of Zeleny Gai in the Donetsk region and Malievka in Dnipropetrovsk ...

The Poland-Ukraine border is more than a geopolitical frontier--it's a testing ground for resilient, decarbonized telecom infrastructure. HighJoule's intelligent microgrid solutions make BTS ...

Ukraine microgrid control
