

"The transition to solar energy is not just about cleaner power - it's about building energy independence, resilience, and hope for Ukraine," Andree Boehling, European Co-Lead of the ...

Explore how Avaada is shaping India's clean energy future with utility-scale Battery Energy Storage Systems (BESS), including a landmark 2.1 GW project to support a sustainable and ...

Ukraine is facing unprecedented energy challenges. In recent years, widespread power outages caused by infrastructure damage, fuel shortages, and grid instability have disrupted daily life and essential services. Rural areas, in ...

The International Renewable Energy Agency's latest report finds little change in the global average levelized cost of electricity for utility-scale solar plants year-on-year, while the global average total installed cost of utility-scale solar projects ...

The Brechin Castle Solar Ltd, a joint venture partnership between bp (35 per cent), Shell (35 per cent) and NGC (30 per cent), has achieved first electrons from the nation's first utility-scale ...

GameChange Solar Highlights Module Flexibility as Key Advantage in Safe Harbor Strategy for Utility-Scale Solar Projects Jul 9, 2025 Wartsila Will Provide a Power Plant Solution for a Significant Mining Initiative in Pakistan ...

The International Renewable Energy Agency's latest report finds little change in the global average levelized cost of electricity for utility-scale solar plants year-on-year, while the global ...

RISE targets EUR100 million funding to power 100 commercial solar and battery projects across Ukraine Projects will combine DTEK's delivery capacity with Octopus Energy's technology to ...

The RISE initiative for solar energy in Ukraine combines local expertise with international technology to support long-term energy independence and sustainability. It represents a ...

Ukraine has been enduring almost daily missile attacks for over three years now, but that hasn't stopped the country from moving towards a clean energy future. The Ukraine-Germany ...

Oschadbank has signed a EUR10.8 million investment loan agreement with "Helios Luchky", a company within the Helios Strategia Group. The funding will be used for the construction of a ...

However, IRENA's recent report challenges this narrative by demonstrating that an impressive 91% of newly

Ukraine utility-scale solar

commissioned utility-scale renewable capacities can deliver electricity at lower prices than the most affordable fossil fuel alternatives.

Recurrent Energy is one of the world's largest and most geographically diversified utility-scale solar and energy storage project development, ownership and operations platforms. With an industry-leading ...

The Role of Solar Farm Repair Specialists in the Renewable Energy Sector Ensuring Continuous Uptime In the utility-scale solar world, every hour of downtime equals lost revenue. Solar farm ...

Utility scale solar submissions increase Submissions for utility scale solar farms has been at heights not seen before. With over 7GWp submitted to date this year and over 5GW submitted ...

According to ICSC Chief Data Scientist Jephraim Manansala, this rise in unregistered solar affects how distribution utilities plan and manage the grid. SPECTRUM classifies rooftop solar into ...

Section 25D--the one that gives homeowners the residential solar tax credit--is now set to expire for systems installed after December 31, 2025. Section 48E, which helped commercial and ...

The United Nations Development Programme (UNDP) is running a tender for a hybrid solar system to support a wastewater treatment facility in northeastern Ukraine. The deadline for ...

What obstacles are utility-scale solar projects currently facing? A disconnect has emerged between supply and demand in the utility-scale solar segment, leading to price cannibalisation ...

Why Understanding Solar Controllers Is Critical For C& I And Utility-Scale Projects Solar controllers play a central role in managing the complexity of commercial and industrial (C& I) and utility-scale solar installations. They act as the system's ...

To get the year started off right, we're highlighting some of the solar-related concepts that we think are particularly important to understand in 2025. We know that to reach our solar and ...

Recently, HY SOLAR supplied high-efficiency TOPCon modules to a commercial and industrial solar project in Kropyvnytskyi, Ukraine, with a total installed capacity of 338kW. Once ...

ABB has earned the UL98B certification for its 2,000-V OTDC switch-disconnector, the first to do so in the renewable energy industry. Over the last 20 years, solar systems have evolved to ...

Enbridge has made a final investment decision on the Clear Fork solar project in Texas, a 600-megawatt facility whose entire output will be acquired by Meta Platforms Inc. under a long ...
