

United Kingdom simco power unit

Before joining SIMCO, he served as a senior manager at the Vogtle units 3 & 4 plants in Georgia, a Bechtel-led project to finish construction of the first new nuclear power plants to be built in the U.S. in more than 30 years. Mike holds a Bachelor of Science in Accounting from California State University at Chico.

The power units transform the main voltage to the high voltage required by the ionizer. Connectable main voltages are 110V AC and 230V AC. Connectable frequencies are 50 and/or 60Hz. There are different types of power units ...
