The breakers do not increase inverter output and it would be different if they were less than the output potential of the inverter. (You see this a lot on portable generators where the available circuits do not allow for the full rated power). Chances are if you add up all the breakers in your Main panel it will be higher than the 200a Service.

If I am understanding, the tomb of st Peter is where his bones were found. I had to get those tickets months in advance. Maybe things have changed now. The cemetery under the Basilica is really cool. One tip I have used all the times I've done the Vatican museum. As you leave the Sistine chapel, go right, hidden stairs take you by the Basilica.
