How much solar energy does the Vatican produce a year?

Thanks to a unique photovoltaic plant installed on the roof of the Vatican Audience Hall, the Papal State has been producing 300 MWh of solar energy every year since its installation in 2008. The project was planned and managed by BayWa r.e. with the PV modules, inverters and its installation donated by solar technology provider, SolarWorld.

Is Vatican City the greenest state in the world?

Vatican City may be the smallest sovereign state in the world, but it is also one of the greenest. It has long been an exemplar for tackling climate change through its approach to renewable energy.

How can the Vatican save CO<sub>2</sub>?

In the heart of the Vatican, we converted 2,134m<sup>2</sup> of idle roof space into a source of green renewable energy. The energy produced by this plant is directly fed into the Vatican's grid, helping to save around 225 tons of CO<sub>2</sub> each year.

Solar to be Vatican's sole energy source, pope orders Vatican City, June 26 (AFP) Jun 26, 2024 ...
