

We are at the forefront of research and development, pioneering solutions that bridge the gap between green energy and cutting-edge digital processes. With a shared commitment to a more sustainable future, we ...

Projektom solarne elektrane Boksic je predviden i baterijski sistem za skladistenje energije (BESS), navodi se u Elaboratu o proceni uticaja na zivotnu sredinu, koji je izraden u februaru ...

Seniority level Mid-Senior level Employment type Full-time Job function Business Development Industries Transportation, Logistics, Supply Chain and Storage and Services for Renewable ...

Zenobe Energy is the largest independent owner and operator of battery storage in the UK. It buys and manages grid-scale batteries for its commercial customers, such as utilities and electric-vehicle operators.

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

To reduce dependence on imports and ensure a stable supply amid climate and market changes, it is essential to accelerate the development of RES projects while simultaneously investing in ...

The exploration of phenolphthalein's role in energy dissipative systems is in its early stages, with a growing market potential as energy efficiency becomes increasingly crucial. The technology is still emerging, with varying levels of ...

The sulfide-based solid electrolyte market is experiencing significant growth, driven by the increasing demand for safer and higher-performing batteries in electric vehicles (EVs) and ...

The Low-carbon and Smart-energy Innovation Park Solutions market is experiencing robust growth, driven by increasing global awareness of climate change and the urgent need for ...

The country expects to achieve fully market-oriented development of the power storage industry and independent research and development of core technologies and equipment by 2030. Answering the call, local governments ...

Two projects led by the University of Oxford have received a major funding boost from the Faraday Institution, the UK's flagship institute for electrochemical energy storage research. The funding is part of a £19 million ...
