Can solar power help Eswatini achieve its electrification goals?

Although Eswatini's electrification rates are relatively high, they are still a long way off 100% (the country's target for 2022). Solar power is the most viable solution for Eswatini to help meet its electrification goals and save costs down the line.

Why is Eswatini's PV market growing?

The biggest driver of growth in Eswatini's PV market comes from private PV projects. In hopes of reaching ambitious goals, Eswatini has made solar panels and batteries exempt from import duties to help with this.

Who is segensolar & what is it doing in Eswatini?

SegenSolar is a leading African independent power producer that is overseeing a ground-mounted project in Eswatini. They are keen to foster the development of additional small and large-scale PV installations across Eswatini. Homeowners can get in touch for more details about their work.

Does Eswatini have electricity?

Despite being one of Africa's smallest countries, Eswatini has an impressive, diverse topography and climate. Unfortunately, its electricity infrastructure is not reliable.

What is driving Eswatini's growth?

The biggest driver of growth in Eswatini's PV market is private PV projects. In 2022, Eswatini partnered with Frazium Energy to commission a new 100MW solar storage project with 75,000 PV panels, hoping to produce more than 100 million kWh of electricity a year and generate at least 200 jobs.

The main electricity supplier in South Africa has been implementing rolling power cuts, called load shedding, to various areas of the country. This is due to a lack of infrastructure to handle the local demand. The load shedding in South Africa has been growing steadily, and it can last for up to eight hours a day. Since this supplier also provides electricity to TWR's office and staff ...

According to the announcement, the bid is tied to the Balekane and the Ngwenya photovoltaic (PV) projects, each with 15 MW of capacity. The solar projects are located on separate parcels of private land in North Western Eswatini, in the Hhohho region.
