

Zimbabwe neosun energy

Some of Zimbabwe's biggest miners are seeking \$182 million to develop 200 megawatts of locally-generated solar power, according to the head of the renewables company responsible for the projects.

Renewable energy generated on farms can be used to cover the company's own needs, and surplus energy can even be sold as a commodity unit to the utility grid. Turn-key solutions developed by NEOSUN Energy specialists for agricultural enterprises and farmers will help your brand to become more sustainable and profitable.

NEOSUN Energy is an international high-tech company, manufacturer of a new generation solar panels and lithium batteries. Provider of advanced solar power solutions and ESS. **WORLDWIDE OFFICES GET THE NEWSLETTERS**

The cumulative savings are estimated to exceed R164 million over the plant's lifespan, making it a highly cost-effective renewable energy investment. The project is expected to reduce 25,807 tons of CO2 emissions, further establishing the mall as a leader in promoting sustainable practices within the Nelspruit region.
